EDUCATION

Mays Business School, Texas A&M University

College Station, TX

Master of Science in Management Information Systems

May 2027

Coursework: Blockchain and AI for Business, Statistics for Data Science, Corporate Information Planning, Adv Database Management Systems, Adv System Analysis & Design, MIS Project Management, Business Information Security

D. J. Sanghvi College of Engineering, University of Mumbai

Mumbai, India

BTech in Information Technology with Honors in DevOps – GPA: 3.87/4

May 2025

Coursework: Database Management Systems, Big Data Analytics, Data Warehouse & Mining, Business Analytics, Statistical Analytics, Software Engineering, Parallel Distributed Computing, Artificial Intelligence, DevOps, MLOps, Cloud Engineering

WORK EXPERIENCE

Development Testing Intern, JMP Statistical Discovery (SAS), Cary, NC

May 2026-Aug 2026

- Build **JMP dashboards** to communicate **test coverage metrics** and **data quality trends**, enabling data-driven quality decisions across the development team
- Develop **Python automation scripts** to validate analytical outputs, ensuring data accuracy and consistency of statistical software results prior to release
- Publish structured test result reports to JMP Live, supporting cross-team data transparency

Business Analysis Intern, Sniro Ltd, Edgware, United Kingdom

Jun 2024-Sep 2024

- Analyzed large **customer engagement datasets** using **SQL** and **Excel**, producing validated **KPI metrics** and **trend reports** to directly support client business strategy recommendations
- Built segmented **SQL views** and **aggregations** to compare campaign and cohort performance, enabling data-driven **identification** of **engagement patterns** and **growth** opportunities
- Developed **Tableau** dashboards with interactive **charts** and **pivot tables** to streamline client reporting, reducing presentation preparation time and improving stakeholder decision speed
- Documented end-to-end data workflows, identified process gaps, and drove a **10%** improvement in **operational efficiency** through **standardized, repeatable reporting** practices
- **Validated** data quality and resolved **upstream inconsistencies** to ensure reliable and accurate inputs for all analytical deliverables

Software Developer Intern, C-DAC India, Mumbai, India

Dec 2023-May 2024

- Built and deployed a data-intensive educational platform on AWS EC2 serving 2M+ students on the national Vidyakash platform with high availability and scalable data delivery
-

PROJECTS

[CMIS Engagement Platform](#) | *Streamlit, Python, MongoDB, VectorDB, Groq API, n8n, pdfplumber*

Dec 2025

- Built an analytics-driven platform enabling data segmentation, KPI tracking, and dashboard-based insights to support operational and policy-level decision-making
- Automated data ingestion and reporting workflows, improving data accuracy, consistency, and operational efficiency by 25%

[AetherMart E-commerce Data Platform](#) | *AWS, MariaDB, Python, NoSQL, Vector Search, Tableau*

Dec 2025

- Designed and implemented end-to-end ETL pipelines in Python and SQL, ensuring data integrity, transformation accuracy, and reliable reporting across a cloud-based platform
 - Optimized SQL queries and relational database schema, improving query performance and enabling scalable analysis across structured and semi-structured datasets
 - Built Tableau reporting views to surface product and sales performance trends for business stakeholder review and operational decision-making
-

SKILLS

Certifications: AWS Certified AI Practitioner, LinkedIn: AI for Project Management, N8N Course Level 1 & 2

Programming Languages: Python, SQL, R, JSL, ReactJS, Java, C, HTML/CSS, JavaScript, C++

Data Science & ML Libraries: Pandas, NumPy, Scikit-learn, OpenCV, Matplotlib, YOLO, XAI, Statistical Analysis

Data Technologies: MySQL, MariaDB, MongoDB, NoSQL, Grafana, JMP, Tableau, Power BI, CI/CD (GitLab), Cloud (Google, AWS), MS Office, JIRA, Git, CI/CD, Excel
